To Whom It May Concern:

Our company has supplied roofing materials to Monroe Roofing for twelve years. We consider them to be truly professional contractors who base their business on pride, integrity and dependability.

We have developed a great relationship with Rick Monroe and value his business deeply. It is our opinion that this company is committed to the high standards of customer satisfaction, which includes the use of quality products and quality workmanship on every job. They always handle their account in a prompt and professional manner, paying within our terms. This company is well managed and enjoys one of the higher credit limits our company has to offer.

We look forward to a long and continuing business relationship with Monroe Roofing.

Sincerely,

Vin Perella
President

VP/tg
